Cooperating organizations

The European Committee for Standardization (CEN), under whose supervision this European Standard was prepared, comprises the national standards organizations of the following countries.

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimislitto, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard was published under the authority of the Standards Board and comes into effect on 20 December 1991

National foreword

This British Standard has been prepared under the direction of the Pigments, Paints and Varnishes Standards Policy Committee and is the English language version of EN 456, “*Paints, varnishes and related products — Determination of flashpoint — Rapid equilibrium method*”, published by the European Committee for Standardization (CEN). EN 456 was produced as a result of international discussions in which the United Kingdom took an active part.

BS EN 456 supersedes BS 3900-A14:1986 which is withdrawn.

BS EN 456 is related to ISO 3679:1983. The scope of ISO 3679 covers paints, varnishes, petroleum and related products whereas the scope of BS EN 456 is restricted to paints, varnishes and related products.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Descriptors: Paints, varnishes, determination, flash point, tests

English version

Paints, varnishes and related products — Determination of flashpoint — Rapid equilibrium method

(ISO 3679, edition 1983 modified)

Peintures, vernis et produits assimilés —
Détermination du point d'éclair — Méthode
rapide à l'équilibre
(ISO 3670, édition 1983 modifiée)

Lacke, Anstrichstoffe und ähnliche Produkte —
Bestimmung des Flammpunktes —
Schnellverfahren
(ISO 3679, Ausgabe 1983 modifiziert)

This European Standard was approved by CEN on 12 August 1991. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
