Cooperating organizations

The European Committee for Electrotechnical Standardization (CENELEC), under whose supervision this European Standard was prepared, comprises the national committees of the following countries:

Austria	Italy
Belgium	Luxembourg
Denmark	Netherlands
Finland	Norway
France	Portugal
Germany	Spain
Greece	Sweden
Iceland	Switzerland
Ireland	United Kingdom

This British Standard, having been prepared under the direction of the Welding Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 April 1994

National foreword

This British Standard has been prepared under the direction of the Welding Standards Policy Committee and is the English language version of EN 50078:1993 *Torches and guns for arc welding* published by the European Committee for Electrotechnical Standardization (CENELEC).

EN 50078 was produced as a result of international discussion in which the UK took an active part.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 16, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Descriptors: Arc welding, torches, requirements, tests

English version

Torches and guns for arc welding

Torches pour le soudage à l'arc

Brenner zum Lichtbogenschweißen

This European Standard was approved by CENELEC on 1993-12-08. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard was prepared by CENELEC Technical Committee TC 26A, Electric arc welding.

It was submitted to the CENELEC members for formal vote in September 1992 and was approved by CENELEC as EN 50078:1993 on 8 December 1993.

The following dates were fixed:

- latest date of publication of an identical national standard (dop) 1994-06-01
- latest date of withdrawal of conflicting national standards (dow) 1994-06-01

For products which have complied with the relevant national standard before 1994-06-01, as shown by the manufacturer or by a certification body, this previous standard may continue to apply for production until 1999-06-01.

Annexes designated “normative” are part of the body of the standard. Annexes designated “informative” are given only for information. In this standard, Annex A and Annex C are informative and Annex B is normative.

Contents

	Page
Foreword	2
Section 1. General	5
1 Scope	5
2 Normative references	5
3 Environmental conditions	5
4 Definitions	5
4.1 torch; gun	5
4.2 body	5
4.3 handle	5
4.4 nozzle	5
4.5 non-consumable electrode (TIG, plasma)	5
4.6 electrode wire (MIG, MAG, MOG)	5
4.7 contact tip (MIG, MAG, MOG)	5
4.8 cable-hose assembly	5
4.9 MIG/MAG torch	5
4.10 MOG torch	5
4.11 TIG torch	6
4.12 plasma torch	6
4.13 plasma welding torch	6
4.14 manual torch	6
4.15 mechanically guided torch	6
4.16 air cooled torch	6
4.17 liquid cooled torch	6
4.18 motorized torch	6
4.19 spool-on-torch	6
5 Classification	6
5.1 Process	6
5.2 Method of guidance	6
5.3 Voltage class	6
5.4 Type of cooling	6
Section 2. Requirements and tests	7
6 Test conditions	7
7 Protection against electric shock	7
7.1 Insulation resistance	7
7.2 Dielectric strength	7
7.3 Protection against direct contact	7
7.3.1 Class M torches	8
8 Thermal rating	8
8.1 Temperature rise	8
8.2 Heating test	8
8.2.1 MIG/MAG and MOG torch	8
8.2.2 TIG and plasma welding torch	10
8.3 Duration of the heating test	10

	Page
8.4 Determination of the ambient air temperature	11
8.5 Cooling liquid	11
8.6 Resistance to weld spatter	11
9 Impact resistance	11
10 Marking	11
11 Instructions for use	11
Annex A (informative) Additional terminology	13
Annex B (normative) Position of the welding torches for the heating test	15
Annex C (informative) Cooled copper block	16
Figure 1 — Device for testing the resistance to weld spatter	12
