

Specification for

Conduit systems for cable management —

Part 2: Particular requirements —

Section 2.1: Rigid conduit systems

The European Standard EN 50086-2-1:1995 with the inclusion of amendment A11:1998 has the status of a British Standard

This British Standard should be read in conjunction with
BS EN 50086-1:1994

ICS 29.120.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PEL/113, Cable management, upon which the following bodies were represented:

- ASTA Certification Services
- British Electrical Systems Association (BEAMA Ltd.)
- British Telecommunications plc
- Electrical Installation Equipment Manufacturers' Association
- Electricity Association
- Gland Manufacturers' Technical Committee
- Institution of Electrical Engineers
- Institution of Incorporated Executive Engineers

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 April 1996

National foreword

This British Standard has been prepared by Technical Committee PEL/113 and is the English language version of EN 50086-2-1:1995, *Conduit systems for cable management — Part 2-1: Particular requirements for rigid conduit systems*, including amendment A11:1998 and corrigendum February 2001, published by the European Committee for Electrotechnical Standardization (CENELEC).

The foreword of EN 50086-2-1 makes reference to the “date of withdrawal” (dow) of the relevant national standard. In this case the relevant national standard is BS 6099-2.2:1982 which will be withdrawn on 1996-12-01. Certificates and Marks will not be awarded after this date with respect to the withdrawn British Standard. However such Certificates and Marks, already awarded may continue to apply to production until 2001-12-01.

This British Standard is to be read in conjunction with BS EN 50086-1:1994 *Specification for conduit systems for cable management — Part 1: General requirements*. The references to Part 1 should be read as references to BS EN 50086-1:1994 which is the English language version of EN 50086-1:1993.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 11 and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

Descriptors: Electric wiring system, rigid conduit, mechanical characteristics, electrical characteristics, test

English version

Conduit systems for cable management — Part 2-1: Particular requirements for rigid conduit systems

(includes amendment A11:1998)

Systèmes de conduits pour la gestion du câblage —

Partie 2-1: Règles particulières pour les systèmes de conduits rigides
(inclut l'amendement A11:1998)

Installationsrohrsysteme zum Führen von Leitungen für elektrische Energie und für Information —

Teil 2-1: Besondere Anforderungen für starre Elektroinstallationsrohrsysteme
(enthält Änderung A11:1998)

This European Standard was approved by CENELEC on 1994-12-06. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
