

Specification for conduit systems for cable management —

Part 2: Particular requirements —

Section 2.4: Conduit systems buried underground

The European Standard EN 50086-2-4:1994, with the incorporation of amendment A1:2001, has the status of a British Standard

This British Standard should be read in conjunction with
BS EN 50086-1:1994

UDC 621.315.2:696.6

Cooperating organizations

The European Committee for Electrotechnical Standardization (CENELEC), under whose supervision this European Standard was prepared, comprises the national committees of the following countries:

Austria	Italy
Belgium	Luxembourg
Denmark	Netherlands
Finland	Norway
France	Portugal
Germany	Spain
Greece	Sweden
Iceland	Switzerland
Ireland	United Kingdom

This British Standard, having been prepared under the direction of the Power Electrical Engineering Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 September 1994

National foreword

This British Standard has been prepared under the direction of the Power Electrical Engineering Standards Policy Committee and is the English language version of EN 50086-2-4:1994 *Conduit systems for cable management — Part 2-4: Particular requirements for conduit systems buried underground*, including amendment A1:2001 and corrigendum February 2001, published by the European Committee for Electrotechnical Standardization (CENELEC).

The foreword of EN 50086-2-4 makes reference to the “date of withdrawal” (dow) of the relevant national standard. In this case the relevant national standard is DD 200:1991 which will be withdrawn on 1 October 1994. Certificates and Marks will not be awarded after this date with respect to the withdrawn British Standard. However, such Certificates and Marks, already awarded may continue to apply to production until 1 October 1999.

This British Standard is to be read in conjunction with BS EN 50086-1:1994 *Specification for conduit systems for cable management — Part 1: General requirements*. The references to Part 1 should be read as references to BS EN 50086-1:1994 which is the English language version of EN 50086-1:1993.

Amendment No. 1 to BS EN 50086-2-4:1994 incorporates amendment A1:2001 to EN 50086-2-4:1994 and corrigendum February 2001 to EN 50086-2-4:1994, which corrects the title of the standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

Sidelining in this document indicates the most recent changes by amendment.

Descriptors: Electric wiring system, conduit buried underground, mechanical characteristics, electrical characteristics, test

English version

Conduit systems for cable management — Part 2-4: Particular requirements for conduit systems buried underground

(includes amendment A1:2001)

Systèmes de conduits pour la gestion du câblage —
Partie 2-4: Règles particulières pour les systèmes de
conduits enterrés dans le sol
(inclut l'amendement A1:2001)

Installationsrohrsysteme zum Führen von
Leitungen für elektrische Energie und für
Information —
Teil 2-4: Besondere Anforderungen für erdverlegte
Elektroinstallations-rohrsysteme
(enthält Änderung A1:2001)

This European Standard was approved by CENELEC on 1993-09-22. Amendment A1:2001 was approved by CENELEC on 2000-08-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
