Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee IST/6, Data communications, to Subcommittee IST/6/10, IEC/CLC monitoring subcommittee, upon which the following bodies were represented:

- British Telecommunications plc
- Digital Equipment Co. Ltd.
- Electric Contractors' Association
- Electricity Association
- Institution of Electrical Engineers
- Nine-tiles Computer Systems Ltd.

This British Standard, having been prepared under the direction of the Information Systems Technology Assembly, was published under the authority of the Standards Board and comes into effect on 15 May 1996

National foreword

This Part of BS EN 50090 has been prepared by Subcommittee IST/6/10 and is the English language version of EN 50090-3-2:1995 *Home and Building Electronic Systems (HBES) — Part 3-2: Aspects of application User process*, published by the European Committee for Electrotechnical Standardization (CENELEC).

This British Standard is published under the direction of the Information Systems Technology Assembly whose Technical Committee IST/6 has given its Subcommittee IST/6/10 the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London, W4 4AL.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 14, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This European Standard was approved by CENELEC on 1995-09-20. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

CENELEC

European Committee for Electrotechnical Standardization

Central Secretariat: rue de Stassart 35, B-1050 Brussels

Foreword

This European Standard has been prepared by the Technical Committee CENELEC TC 105, Home and Building Electronic Systems (HBES).

The text of the draft was submitted to the Unique Acceptance Procedure and was approved by CENELEC as EN 50090-3-2 on 1995-09-20.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1996-06-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1996-06-01

EN 50090-3-2 is Part of the EN 50090 series of European Standards, which will comprise the following Parts:

- *Part 1: Standardization structure;*
- *Part 2: System overview;*
- *Part 3: Aspects of application;*
- *Part 4: Transport layer and network layer;*
- *Part 5: Media and media dependant layers;*
- *Part 6: Interfaces;*
- *Part 7: System management.*
