

Hand crimping tools — Tools for the crimp termination of electric cables and wires for low frequency and radio frequency applications —

**Part 2-2: Particular requirements
for radio frequency connectors
and concentric contacts — Open throat
tools with removable and
interchangeable dies, sizes A to G, Q to
T, V and W**

ICS 25.140.30

National foreword

This British Standard is the UK implementation of EN 50109-2-2:1995, incorporating corrigendum November 2012. It supersedes BS 5310-2B:1981, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee EPL/46, Cables, wires and waveguides, radio frequency connectors and accessories for communication and signalling.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Electro-technical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 February 1996

English version

Hand crimping tools
Tools for the crimp termination of electric cables and wires
for low frequency and radio frequency applications
Part 2-2: Particular requirements for radio frequency
connectors and concentric contacts — Open throat tools
with removable and interchangeable dies,
sizes A to G, Q to T, V and W

Outils de sertissage manuels
Outils pour sertir les câbles et fils électriques
basse fréquence et radio-fréquence
Partie 2-2: Connecteurs radio-fréquence —
Pincés à machoires amovibles et
interchangeables, tailles
A à G, Q à T, V et W

Handcrimpwerkzeuge
Werkzeuge für den Crimpanschluß von
elektrischen Leitungen und Drähten für
Niederfrequenz- und für
Hochfrequenzanwendungen
Teil 2-2: Spezielle Anforderungen für
Hochfrequenzsteckverbinder und
konzentrische Kontakte — Werkzeuge mit
Maulöffnung und lösbaren austauschbaren
Crimpbacken, Größen A bis G, Q bis T, V und W

This European Standard was approved by CENELEC on 1993-09-22. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

European Committee for Electrotechnical Standardization
Comité Européen de Normalisation Electrotechnique
Europäisches Komitee für Elektrotechnische Normung

Central Secretariat: rue de Stassart 35, B-1050 Brussels

Foreword

This European Standard was prepared by the British Electrotechnical Committee [BT(GB/NOT)11].

The text of the draft was submitted to the Unique Acceptance Procedure (UAP) in November 1992 and was approved by CENELEC as EN 50109-2-2 on 1993-09-22.

NOTE Finland has no obligation to implement this European Standard.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1995-12-15
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1995-12-15

For products which have complied with the relevant national standard before 1995-12-15, as shown by the manufacturer or by a certification body, this previous standard may continue to apply for production until 2000-12-15.
