Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PEL/14, Power transformers, upon which the following bodies were represented:

- Association of Consulting Engineers
- British Cable Makers Confederation
- British Pump Manufacturers' Association
- British Railways Board
- Electricity Association
- Institution of Plant Engineers
- Transmission and Distribution Association (BEAMA Limited)

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 June 1997

National foreword

This British Standard has been prepared by Technical Committee PEL/14, and is the English language version of EN 50195 : 1996 *Code of practice for the safe use of fully enclosed askarel-filled electrical equipment*, published by the European Committee for Electrotechnical Standardization (CENELEC).

This British Standard is published under the direction of the Electrotechnical Sector Board whose Technical Committee PEL/14 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE. International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover.

ICS 29.180

Descriptors: Electrical equipment, liquid electrical insulating materials, askarel, polychlorobiphenyl, contamination, environmental protection, warning notices, accident prevention, safety, safety measures, labelling, hazards, defects, accidents, fire, first aid, hygiene

English version

Code of practice for the safe use of fully enclosed askarel-filled electrical equipment

Code pour la sécurité d'emploi des matériels électriques totalement clos remplis d'askarels

Leitlinie für die Praxis zum sicheren Umgang mit vollständig gekapselten, mit PCB befüllten elektrischen Betriebsmitteln

This European Standard was approved by CENELEC on 1996-07-02. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
