Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee EPL/100, Audio, video and multimedia systems and equipment, to Subcommittee EPL/100/1, Receiving equipment, upon which the following bodies were represented:

- British Broadcasting Corporation
- British Educational Suppliers Association
- British Radio and Electronic Equipment Manufacturers Association
- British Telecommunications plc
- Radiocommunications Agency
- Radio Society of Great Britain

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1997

National foreword

This British Standard has been prepared by Subcommittee EPL/100/1, and is the English language version of EN 50203:1996 including Amendment A1:1997, published by the European Committee for Electrotechnical Standardization (CENELEC).

This British Standard is published under the direction of the Electrotechnical Sector Board whose Technical Committee EPL/100 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 20, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

English version

Automatic channel installation (ACI)

(includes amendment A1:1997)

Installation automatique des canaux (ACI)
(inclut l'amendement A1:1997)

Automatische Kanalzuordnung (ACI)
(enthält Änderung A1:1997)

This European Standard was approved by CENELEC on 1996-07-02. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

European Committee for Electrotechnical Standardization
Comité Européen de Normalisation Electrotechnique
Europäisches Komitee für Elektrotechnische Normung

Central Secretariat: rue de Stassart 35, B-1050 Brussels

Foreword

This European Standard was prepared by the Technical Committee CENELEC TC 206, Broadcast receiving equipment.

The text of the draft was submitted to the formal vote and was approved by CENELEC as EN 50203 on 1996-07-02.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1997-06-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1997-06-01

Foreword to EN 50203:1996/A1:1997

This amendment was prepared by the Technical Committee CENELEC TC 206, Broadcast receiving equipment.

The text of the draft was submitted to the Unique Acceptance Procedure and was approved by CENELEC as amendment A1 to EN 50203:1996 on 1997-02-15.

The following dates were fixed:

- latest date by which the amendment has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1997-10-01
- latest date by which the national standards conflicting with the amendment have to be withdrawn (dow) 1997-10-01

IPR Statement

“Philips Electronics N.V. hereby declares that it is willing to grant non-exclusive, non-transferable licences under its patent rights, both granted and pending and owned by Philips Electronics N.V. or by one of its subsidiaries, to the extent Philips Electronics N.V. and its subsidiaries are free to license said patent rights and to the extent said patent rights cover features prescribed by the European Standard EN 50203:1996 for Automatic channel installation, to any third party who wishes to obtain such licenses at fair and reasonable terms on a non-discriminatory basis, for use in systems fully complying with said adopted Standard and provided that such third party obtaining such licenses from Philips Electronics N.V. is free to license and agrees to license Philips Electronics N.V. and its subsidiaries under the patent rights, which such third party may have or obtain and to the extent they cover features prescribed by said Standard on no less favourable non-discriminating terms and conditions.”
