

BSI Standards Publication

Information technology – Measurement of end-to-end (E2E) links

National foreword

This British Standard is the UK implementation of EN 50697:2019.

This standard references informative test limits from international Technical Reports only. It has been produced as a placeholder for a second edition.

The second edition, expected in late 2020 or early 2021, will have a wider scope, supporting a future CENELEC design standard containing additional requirements for end-to-end links, direct attach cabling and modular plug terminated links.

The UK participation in its preparation was entrusted to Technical Committee TCT/7, Telecommunications - Installation requirements.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

English Version

Information technology - Measurement of end-to-end (E2E) links

Technologies de l'information - Mesurage des liaisons de bout en bout (E2E)

Informationstechnik - Messung von Ende-zu-Ende-Verbindungsstrecken

This European Standard was approved by CENELEC on 2019-05-08. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

European foreword

This document (EN 50697:2019) has been prepared by CLC/TC 215 “Electrotechnical aspects of telecommunication equipment”, based upon ISO/IEC 14763-4:2018 “Information technology – Implementation and operation of customer premises cabling – Part 4: Measurement of end-to-end (E2E) links”.

The following dates were fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2020–05–08
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2022–05–08

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.
