

BSI Standards Publication

Electromagnetic compatibility — Radio frequency emission — Statistical considerations in the determination of compliance for mass-produced products with requirements for unwanted radio frequency emission

National foreword

This British Standard is the UK implementation of EN 50715:2022. It supersedes PD CISPR/TR 16-4-3:2004, which will be withdrawn on 6 June 2025.

The UK participation in its preparation was entrusted to Technical Committee GEL/210, EMC - Policy committee.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is, and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.

English Version

**Electromagnetic compatibility - Radio frequency emission -
Statistical considerations in the determination of compliance for
mass-produced products with requirements for unwanted radio
frequency emission**

Compatibilité électromagnétique - Emissions
radiofréquences - Considérations statistiques pour la
détermination de la conformité des produits de série aux
exigences en matière d'émissions radiofréquences
indésirables

Elektromagnetische Verträglichkeit - Hochfrequente
Störaussendungen - Statistische Betrachtungen bei der
Bestimmung der Übereinstimmung von seriengefertigten
Produkten mit Anforderungen zur unerwünschten
hochfrequenten Störaussendung

This European Standard was approved by CENELEC on 2022-06-06. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.
