Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PSM/35, Clothing for protection against heat and flame, upon which the following bodies were represented:

- Amalgamated Engineering Union
- British Clothing Industry Association
- British Foundry Association
- British Leather Confederation
- British Railways Board
- British Steel plc
- British Textile Confederation
- British Textile Technology Group
- Chemical Industries' Association
- Chief and Assistant Chief Fire Officers' Association
- Confederation of British Wool Textiles Limited
- Health and Safety Executive
- Home Office
- Industrial Safety (Protective Equipment) Manufacturers' Association
- Institute of Occupational Hygienists
- Institution of Fire Engineers
- International Wool Secretariat
- Ministry of Defence
- Society of British Gas Industries
- Trades Union Congress

This British Standard, having been prepared under the direction of the Sector Board for Health and Environment, was published under the authority of the Standards Board and comes into effect on 15 May 1995

National foreword

This British Standard has been prepared by Technical Committee PSM/35 and is the English language version of EN 532:1994 *Protective clothing — Protection against heat and flame — Test method for limited flame spread* published by the European Committee for Standardization (CEN). It supersedes test 2A in BS 5438:1989.

EN 532 was produced as a result of international discussions in which the United Kingdom took an active part.

Cross-references

Publication referred to	Corresponding British Standard
EN 366:1993	BS EN 366:1993 <i>Protective clothing — Protection against heat and fire — Method of test: evaluation of materials and material assemblies when exposed to a source of radiant heat</i>
EN 367:1992	BS EN 367:1992 <i>Protective clothing — Protection against heat and fire — Method of determining heat transmission on exposure to flame</i>
EN 702:1994	BS EN 702:1995 <i>Protective clothing — Protection against heat and flame — Test method: Determination of the contact heat transmission through protective clothing or its materials</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

English version

Protective clothing — Protection against heat and flame — Test method for limited flame spread

Vêtements de protection — Protection contre la
chaleur et les flammes — Méthode d'essai pour
la propagation de flamme limitée

Schutzkleidung — Schutz gegen Hitze und
Flammen — Prüfverfahren für die begrenzte
Flammenausbreitung

This European Standard was approved by CEN on 1994-11-24. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
