National foreword

This British Standard has been prepared under the direction of Technical Committee B/542, Roofing and cladding products for discontinuous laying, and is the English language version of EN 538:1994, *Clay roofing tiles for discontinuous laying — Flexural strength test,* published by the European Committee for Standardization (CEN).

EN 538 partially replaces BS 402:1990, which will be withdrawn in due course. EN 538 was produced as a result of international discussions in which the UK took an active part.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages
