

Environmental testing —

Part 2: Test methods —

Test Ef: Impact, pendulum hammer

The European Standard EN 60068-2-62:1995 has the status of a British Standard

Product code 00630203
ICS 19.040

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee GEL/50, Environmental testing of electrotechnical products, upon which the following bodies were represented:

- Federation of the Electronics Industry
- GAMBICA (BEAMA Ltd.)
- Society of Environmental Engineers
- Society of Motor Manufacturers and Traders Ltd.

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1996

National foreword

This British Standard has been prepared by Technical Committee GEL/50 and is the English language version of EN 60068-2-62:1995 *Environmental testing — Part 2: Test methods — Test Ef: Impact, pendulum hammer*, published by the European Committee for Electrotechnical Standardization (CENELEC).

It is identical with IEC 68-2-62:1991, including Amendment 1:1993, published by the International Electrotechnical Commission (IEC).

This British Standard supersedes BS 2011-2.1Ef:1992 which is withdrawn.

Cross-references

Publication referred to	Corresponding British Standard
EN 60068-1:1995 (IEC 68-1:1988)	BS EN 60068 <i>Environmental testing</i> Part 1:1995 <i>General and guidance</i>
ISO 2041:1990	BS 3015:1991 <i>Glossary of terms relating to mechanical vibration and shock</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 19.040

Descriptors: Environmental testing, electricity, component, equipment, mechanical test, impact, pendulum hammer, procedures, components specifications writing, equipment specifications writing

English version

Environmental testing
Part 2: Test methods
Test Ef: Impact, pendulum hammer

(IEC 68-2-62:1991 + A1:1993)

Essais d'environnement
Partie 2: Méthodes d'essai
Essai Ef: Impacts, marteau pendulaire
(CEI 68-2-62:1991 + A1:1993)

Umweltprüfungen
Teil 2: Prüfverfahren
Prüfung Ef: Stoßen, Pendelhammer
(IEC 68-2-62:1991 + A1:1993)

This European Standard was approved by CENELEC on 1994-12-06. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of the International Standard IEC 68-2-62:1991 and its amendment 1:1993, prepared by SC 50A, Vibration, impact and other dynamic tests, of IEC TC 50, Environmental testing, was submitted to the Unique Acceptance Procedure and was approved by CENELEC as EN 60068-2-62 on 1994-12-06 without any modification.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1995-12-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1995-12-01

Annexes designated “normative” are part of the body of the standard. Annexes designated “informative” are given for information only. In this standard, Annex ZA is normative and Annex A and Annex B are informative. Annex ZA has been added by CENELEC.
