

Hearing aids —

Part 6: Characteristics of electrical input circuits for hearing aids

The European Standard EN 60118-6:1999 has the status of a
British Standard

ICS 17.140.50

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Electronic Equipment Standards Committee (EEL/-) to Technical Committee EEL/24 upon which the following bodies were represented:

- British Radio and Electronic Equipment Manufacturers' Association
- British Telecommunications
- Department of Health and Social Security
- Department of Trade and Industry (National Physical Laboratory)
- Institution of Electronic and Radio Engineers
- Royal National Institute for the Deaf
- Society of Hearing Aid Audiologists Limited

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Medical Association
- British Society of Audiology
- Health and Safety Executive
- Hearing Aid Industry Association
- Institute of Acoustics
- Institute of Sound and Vibration Research
- Manchester Area Health Authority
- Medical Research Council
- Ministry of Defence
- National Coal Board
- Royal Aeronautical Society

This British Standard, having been prepared under the direction of the Electrical Equipment Standards Committee, was published under the authority of the Board of BSI and comes into effect on

National foreword

This British Standard has been prepared by Technical Committee EPL/29 (formerly EEL/24) and is the English language version of EN 60118-6:1998. It is identical with IEC 118-6:1985.

The British Standards which implement international or European publications referred to in this document may be found in the BSI *Standards Catalogue* under the section entitled “International Standards Correspondence index” or by using the “Find” facility of the BSI *Standards Electronic Catalogue*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
