National foreword

This British Standard has been prepared under the direction of the Power Electrical Engineering Standards Policy Committee and is the English language version of EN 60204-3-1 “Electrical equipment of industrial machines: Part 3: Particular requirements for sewing machines, units and systems”, published by the European Committee for Electrotechnical Standardization (CENELEC). It was derived by that organization from IEC Publication 204-3-1 (1988) first edition which has a similar title to that of the European Standard. The foreword and preface of IEC Publication 204-3-1 which do not form part of the text of EN 60204-3-1 have been quoted in national appendix NA. Annexes designated “normative” are part of the body of the standard. Annexes designated “informative” are given for information only. National appendices are designated “informative”.

This British Standard is to be read in conjunction with BS 2771-1:1986 “Specification for general requirements” which it supplements or modifies. The many references to Part 1 should be read as references to BS 2771-1, which is the English language version of EN 60204-1:1985 which was derived from IEC Publications 204-1 (1981) and 204-2 (1984).

Cross-references. The relationship between other international publications quoted in this standard and British Standards which are either identical or technically equivalent, is given in national appendix NC.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
