

Lead-acid traction batteries —

Part 2: Dimensions of cells and terminals and marking of polarity on cells

ICS 29.220.20

National foreword

This British Standard is the UK implementation of EN 60254-2:2008. It is identical to IEC 60254-2:2008. It supersedes BS EN 60254-2:1997 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PEL/21, Secondary cells and batteries.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 June 2008

**Lead-acid traction batteries -
Part 2: Dimensions of cells and terminals
and marking of polarity on cells
(IEC 60254-2:2008)**

Batteries d'accumulateurs
de traction au plomb -
Partie 2: Dimensions des éléments
et des bornes et indication
de la polarité sur les éléments
(CEI 60254-2:2008)

Blei-Antriebsbatterien -
Teil 2: Maße von Zellen
und Endpolen und Kennzeichnung
der Polarität auf Zellen
(IEC 60254-2:2008)

This European Standard was approved by CENELEC on 2008-03-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

Foreword

The text of document 21/668/FDIS, future edition 4 of IEC 60254-2, prepared by IEC TC 21, Secondary cells and batteries, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as EN 60254-2 on 2008-03-01.

This European Standard supersedes EN 60254-2:1997 + A1:2000. The main modification concerns the introduction of new dimensions.

The following dates were fixed:

- latest date by which the EN has to be implemented
at national level by publication of an identical
national standard or by endorsement (dop) 2008-12-01
- latest date by which the national standards conflicting
with the EN have to be withdrawn (dow) 2011-03-01

Annex ZA has been added by CENELEC.

Endorsement notice

The text of the International Standard IEC 60254-2:2008 was approved by CENELEC as a European Standard without any modification.

In the official version, for Bibliography, the following note has to be added for the standard indicated:

IEC 60095-2 NOTE Harmonized as EN 60095-2:1993 (modified).

CONTENTS

1	Scope and object.....	4
2	Normative references	4
3	Main dimensions of traction battery cells	4
3.1	Standard series	4
3.2	External dimensions	4
3.3	Cell range prevalent in Asia.....	5
3.4	Cell range prevalent in North America	5
4	Marking of polarity on traction battery cells and dimensions of corresponding symbols.....	7
4.1	General provisions for marking of cell polarity	7
4.2	Form of marking	7
4.3	Symbols used for marking and their dimensions	7
5	Basic dimensions of traction battery terminals	8
5.1	General provisions for dimensions of battery terminals	8
5.2	Conical traction battery terminals	8
5.3	Bolted traction battery terminals	8
	Bibliography.....	10
	Figure 1 – Basic dimensions of conical traction battery terminals	8
	Figure 2 – Basic dimensions of traction battery cable ends for bolted terminals	9
	Table 1 – Main dimensions of traction battery cells	5
	Table 2 – Main dimensions of traction battery cells prevalent in Asia	6
	Table 3 – Main dimensions of traction battery cells (vented) prevalent in North America	7
