National foreword

This British Standard is the English language version of EN 60255-8:1998. It was derived by CENELEC from IEC 60255-8:1990.

The CENELEC common modifications have been implemented at the appropriate places in the text and are indicated by a side line in the margin.

The UK participation in its preparation was entrusted to Technical Committee PEL/95, Measuring relays and protection systems, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 14, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been prepared under the direction of the Electrotechnical Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 November 1998

English version

Electrical relays Part 8: Thermal electrical relays

(IEC 60255-8:1990, modified)

Relais électriques
Partie 8: Relais électriques thermiques
(CEI 60255-8:1990, modifiée)

Elektrische Relais
Teil 8: Überlastrelais
(IEC 60255-8:1990, modifiziert)

This European Standard was approved by CENELEC on 1997-07-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

CENELEC

European Committee for Electrotechnical Standardization
Comité Européen de Normalisation Electrotechnique
Europäisches Komitee für Elektrotechnische Normung

Central Secretariat: rue de Stassart 35, B-1050 Brussels

Foreword

The text of the International Standard IEC 60255-8:1990, prepared by IEC TC 95, Measuring relays and protection equipment, together with the common modifications prepared by the CENELEC BTTF 63-5, Static measuring relays, was submitted to the Unique Acceptance Procedure and was approved by CENELEC as EN 60255-8 on 1997-07-01.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1998-08-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1998-08-01

Annexes designated “normative” are part of the body of the standard.

Annexes designated “informative” are given for information only.

In this standard, Annex ZA is normative and Appendix A, Appendix B and Appendix C are informative.

Annex ZA has been added by CENELEC.

Contents

	Page
Foreword	2
Section 1. General	
1 Scope and object	3
2 Definitions	3
Section 2. Requirements	
3 Standard values	4
4 Accuracy	7
Section 3. Test methods	
5 Tests related to operating characteristics and accuracy	8
6 Tests for thermal requirements	9
Appendix A Characteristic curves, cold curves	11
Appendix B Characteristic curves, hot curves	11
Appendix C Example for determining accuracy	13
Annex ZA (normative) Normative references to international publications with their corresponding European publications	Inside back cover
Figure 1 — Test circuit for determining the minimum operating current and the cold characteristic	9
Figure 2 — Test circuit for determining the hot characteristics	10
Table 1 — Reference conditions and test tolerances of influencing quantities and factors	5
Table II — Previous current values when measuring the effect of influencing quantities	5
Table III — Standard reference conditions and test tolerances of correcting quantities when measuring the effect of influencing quantities	6
Table IV — Standard values of the limits of the nominal ranges of influencing quantities and factors	6
Table V — Standard values of the limits of the nominal range of previous current values	6
Table VI — Standard values of the limits of the nominal range of correcting quantities	7
