

Specifications for particular types of winding wires —

Part 13: Polyester or polyesterimide overcoated with polyamide-imide enamelled round copper wire, class 200

The European Standard EN 60317-13:1994, with the incorporation of amendments A1:1997 and A2:1998 has the status of a British Standard

ICS 29.060.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Cables and Insulation Standards Policy Committee (CIL/-) to Technical Committee CIL/55, upon which the following bodies were represented:

- Covered Conductors Association
- Electrical and Electronic Insulation Association (BEAMA Ltd.)
- Electronic Components Industry Federation
- Transmission and Distribution Association (BEAMA Ltd.)

This British Standard, having been prepared under the direction of the Cables and Insulation Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 March 1993

National foreword

This British Standard has been prepared by Technical Committee GEL/55 (formerly CIL/55) and is the English language version of EN 60317-13 *Specifications for particular types of winding wires — Part 13: Polyester or polyesterimide overcoated with polyamide-imide enamelled round copper wire, class 200*, including amendments A1:1997 and A2:1998, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 60317-13:1990, including amendment 1:1997 and amendment 2:1997, published by the International Electrotechnical Commission (IEC). It supersedes BS 6811-3.3:1989 which is withdrawn.

The introduction to IEC 60317-13 reads as follows.

“This International Standard is one of a series which deals with insulated wires used for windings in electrical equipment. The series has three groups describing:

- 1) methods of test (IEC 851);
- 2) specifications (IEC 317);
- 3) packaging (IEC 264).”

NOTE 1 This Part of BS EN 60317 should be read in conjunction with BS EN 60317-0-1 *General requirements. Enamelled round copper wire*.

NOTE 2 Reference should be made to BS 6811-0 *General introduction and list of Parts*, which lists all standards in the BS 6811 series and gives their relationships with IEC publications.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Descriptors: Electric conductor, electric wire, winding, copper, polyester(imide), polyamide-imide, dimension, insulated wire, specification

English version

Specifications for particular types of winding wires Part 13: Polyester or polyesterimide overcoated with polyamide-imide enamelled round copper wire, class 200

(includes amendments A1:1997 and A2:1998)
(IEC 60317-13:1990 + A1:1997 + A2:1997)

Spécifications pour types particuliers de fils
de bobinage

Partie 13: Fil de section circulaire en cuivre
émaillé avec polyester ou polyesterimide et avec
surcouche polyamide-imide, classe 200

(inclut les amendements A1:1997 et A2:1998)
(CEI 60317-13:1990 + A1:1997 + A2:1997)

Technische Lieferbedingungen für bestimmte
Typen von Wickeldrähten

Teil 13: Runddrähte aus Kupfer, lackisoliert
mit Polyester oder Polyesterimid und darüber
mit Polyamidimid, Klasse 200

(enthält Änderungen A1:1997 und A2:1998)
(IEC 60317-13:1990 + A1:1997 + A2:1997)

This European Standard was approved by CENELEC on 1994-09-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
