

Safety of household and similar electrical appliances —

Part 2-11: Particular requirements for tumble dryers

The European Standard EN 60335-2-11, with the incorporation of amendments A1:2001 and A11:2002, has the status of a British Standard

ICS 97.060

National foreword

This British Standard is the official English language version of EN 60335-2-11:2001, including amendments A1:2001 and A11:2002 and corrigendum July 2004. It was derived by CENELEC from IEC 60335-2-11:2000, including amendment 1:2000. It supersedes BS EN 60335-2-11:1996 which will be withdrawn on 2007-08-01.

The CENELEC common modifications have been implemented at the appropriate places in the text and are indicated by   in the margin.

The UK participation in its preparation was entrusted by Technical Committee CPL/61, Safety of household and similar appliances, to Subcommittee CPL/61/14, Home laundry appliances and dishwashers, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement these international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 17, and a back cover.

The BSI copyright date displayed in this document indicates when the document was last issued.

This British Standard, having been prepared under the direction of the Electrotechnical Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 July 2001

This European Standard was approved by CENELEC on 2000-08-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of amendment 2:1999 to IEC 60335-2-11:1993, prepared by the IEC Technical Committee 61, was submitted to the Unique Acceptance Procedure.

The text of document 61/1646/FDIS, future amendment to IEC 60335-2-11:1993 prepared by the IEC Technical Committee 61, was submitted to the IEC-CENELEC parallel vote.

The above texts were combined with the text of IEC 60335-2-11:1993 and its amendment 1:1998 into a new edition of IEC 60335-2-11 which, together with the common modification in EN 60335-2-11:1995, was approved by CENELEC as a new edition of EN 60335-2-11 on 2000-08-01.

The following dates are applicable:

- latest date by which the EN has to be implemented
at national level by publication of an identical
national standard or by endorsement (dop) 2001-08-01
- date on which national standards
conflicting with the EN have to be withdrawn (dow) 2006-08-01

This European Standard replaces EN 60335-2-11:1995 and its amendment A1:1998.

This standard has to be used in conjunction with EN 60335-1, Safety of household and similar electrical appliances, Part 1: General requirements. It was established on the basis of the 1994 edition of that standard. Amendments and revisions of part 1 have also to be taken into account and the dates when such changes become applicable will be stated in the relevant amendment or revision of part 1.

This part 2 supplements or modifies the corresponding clauses of EN 60335-1, so as to convert it into the European Standard: Safety requirements for electric tumble dryers.

When a particular subclause of part 1 is not mentioned in this part 2, that subclause applies as far as is reasonable. When this standard states "addition", "modification" or "replacement", the relevant text of part 1 is to be adapted accordingly.

Subclauses and figures which are additional to those in part 1 are numbered starting with 101.

There are no special national conditions causing a deviation from this European Standard, other than those listed in annex ZA to EN 60335-1.

There are no national deviations from this European Standard, other than those listed in annex ZB to EN 60335-1.

NOTE The following print types are used:

- requirements: in roman type;
- *test specifications: in italic type*;
- notes: in small roman type.

Words in **bold** in the text are defined in clause 2. When a definition of part 1 concerns an adjective, the adjective and the associated noun are also in bold.

p NOTE In this document, p is used in the margin to indicate instructions for preparing the printed version.

Introduction

An investigation by CENELEC TC 61 has shown that all risks from products within the scope of this standard are fully covered by the Low Voltage Directive, 73/23/EEC. If the product has mechanical moving parts, a risk assessment in accordance with the Machinery Directive, 89/392/EEC, has shown that the risks are mainly of electrical origin and consequently this directive is not applicable. However, the relevant essential safety requirements of the Machinery Directive are covered by this standard together with the principal objectives of the Low Voltage Directive.

Foreword to amendment A1

The text of document 61/1874/FDIS, future amendment to IEC 60335-2-11:2000 prepared by the IEC Technical Committee 61, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as amendment A1 to EN 60335-2-11:2001 on 2000-11-01.

The following dates are applicable:

- latest date by which the amendment has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2001-08-01
- date on which national standards conflicting with the amendment have to be withdrawn (dow) 2006-08-01

This amendment supplements or modifies the corresponding clauses of EN 60335-2-11:2001.

There are no special national conditions causing a deviation from this amendment.

There are no national deviations from this amendment.

Foreword to amendment A11

A proposal to amend EN 60335-2-11:2001, document CLC/TC 61(SEC)1283, was discussed during the Kristiansand meeting in June 2000 when it was decided to submit a draft for an amendment to the Unique Acceptance Procedure.

The draft was circulated in June 2001 and was approved by CENELEC as amendment A11 to EN 60335-2-11:2001 on 2002-03-01.

The following dates were fixed:

- latest date by which the amendment has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2003-03-01
- date on which national standards conflicting with the amendment have to be withdrawn (dow) 2006-08-01

This amendment supplements or modifies the corresponding clauses of EN 60335-2-11:2001.

There are no special national conditions causing a deviation from this amendment.

There are no national deviations from this amendment.
