National foreword

This British Standard has been prepared by Subcommittee CPL/61/30 and is the English language version of EN 60335-2-13 : 1995 *Safety of household and similar electrical appliances Part 2-13: Particular requirements for deep fat fryers, frying pans and similar appliances*, including amendment A2 : 1998 and corrigendum November 1998 published by the European Committee for Electrotechnical Standardization (CENELEC). It was derived by CENELEC from IEC 60335-2-13 : 1993 including amendment 1 : 1993 and amendment 2 : 1998 which has the same title as the European Standard and which was published by the International Electrotechnical Commission (IEC).

NOTE. Amendment 1 : 1993 to IEC 60335-2-13 was incorporated into EN 60335-2-13 : 1995. Thus there is no CENELEC amendment A1 to EN 60335-2-13.

The CENELEC common modifications have been implemented at the appropriate places in the text and are indicated by a side-line in the margin. The original text, prior to amendment or deletion by the CENELEC common modifications, is given in national annex NA.

This British Standard supersedes BS EN 60335-2-13 : 1991 which will be withdrawn on 1 March 1998 in accordance with the CENELEC Internal Regulations. Certification and marks will not be awarded after this date with respect to BS EN 60335-2-13 : 1991. However, such certification and marks, already awarded, may continue to apply for production until 1 March 2003.

This British Standard is to be read in conjunction with BS EN 60335-1 : 1995 *General requirements*. The many references to Part 1 should be read as references to BS EN 60335-1, which is the English language version of EN 60335-1 : 1994 which was derived from the second impression, 1993, of IEC publication 335-1 (third edition 1991). Amendments and revisions of Part 1 have also to be taken into account and the dates when such changes become applicable will be stated in the relevant amendment or revision of Part 1.

Product approval. Attention is drawn to the fact that products conforming to this British Standard may be approved by the British Electrotechnical Approvals Board for the purposes of participation in the CENELEC Certification Agreement and in the CB Scheme of the IECEE. (Details of the BEAB Approval Scheme are given on the inside back cover.)

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This European Standard was approved by CENELEC on 1995-07-04. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
