National foreword

This British Standard has been prepared by Subcommittee CPL/61/10 and is the English language version of EN 60335-2-69:1995 *Safety of household and similar electrical appliances — Part 2: Particular requirements for wet and dry vacuum cleaners, including power brush, for industrial and commercial use*, including corrigendum March 1998, published by the European Committee for Electrotechnical Standardization (CENELEC). It is based on IEC 335-2-69:1992 published by the International Electrotechnical Commission (IEC), which has the same title as the European Standard. The CENELEC common modifications have been implemented at the appropriate places in the text and are indicated by a side line in the margin.

The foreword of EN 60335-2-69 makes reference to the date of withdrawal (dow) of the relevant national standard. In this case the relevant national standard is BS 5415-2.2:1986 which will be withdrawn on 1998-01-01. Certificates or marks will not be awarded after this date with respect to the withdrawn British Standard. However such certificates and marks already awarded may apply to production until 2003-01-01.

This British Standard is to be read in conjunction with BS 3456-201:1990 *General requirements* including only those amendments shown in the following table marked with an asterisk which supplement and modify BS 3456-201. The interrelationships of the amendments to IEC 335-1:1976, EN 60335-1:1988 and BS 3456-201:1990 are also shown in the table. The many references to Part 1 should be read as references to BS 3456-201, which is the English language version of EN 60335-1, which was derived from the 1983 reprint of IEC 335-1:1976 including amendments 1, 2 and 3 to IEC 335-1:1976.
