

Specification for insulating materials based on mica —

Part 3: Specifications for individual materials —

Sheet 1: Commutator separators and materials

The European Standard EN 60371-3-1:1995 has the status of a
British Standard

ICS 29.040.20

UDC 621.315.613.1

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee GEL/15, Insulating materials, upon which the following bodies were represented:

- British Ceramic Research Ltd.
- British Industrial Ceramic Manufacturers' Association
- British Telecommunications plc
- Department of Trade and Industry (National Physical Laboratory)
- Electrical and Electronic Insulation Association (BEAMA Ltd.)
- Electricity Association
- Federation of the Electronics Industry
- Ministry of Defence
- Rotating Electrical Machines Association (BEAMA Ltd.)
- Transmission and Distribution Association (BEAMA Ltd.)

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- ERA Technology Ltd.
- Mica Trade Club

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1995

National foreword

This British Standard has been prepared by Technical Committee GEL/15 and is the English language version of EN 60371-3-1:1995 *Specification for insulating materials based on mica — Part 3: Specifications for individual materials — Sheet 1: Commutator separators and materials*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 371-3-1:1984 published by the International Electrotechnical Commission (IEC).

Cross-reference

Publication referred to	Corresponding British Standard
IEC 371-2:1973	BS 6236 <i>Electrical insulating materials based on mica</i> Part 2:1988 <i>Methods of test</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
