

Electromechanical components for electronic equipment — Basic testing procedures and measuring methods —

**Part 15: Mechanical tests on contacts
and terminations —**

**Section 8: Test 15h. Contact retention
system resistance to tool application**

The European Standard EN 60512-15-8:1995 has the status of a
British Standard

ICS 31.220.01

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee EPL/48, Electromechanical components for electronic equipment, to Subcommittee EPL/48/2, Connectors for electronic equipment, upon which the following bodies were represented:

- Association of Manufacturers' Allied to the Electrical and Electronic Industry (BEAMA Ltd.)
- British Telecommunications plc
- BSI Quality Assurance
- Federation of the Electronics Industry
- Ministry of Defence
- Premises Cabling Association

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 March 1997

National foreword

This Section of BS EN 60512 has been prepared by Subcommittee EPL/48/2, and is the English language version of EN 60512-15-8:1995 *Electromechanical components for electronic equipment — Basic testing procedures and measuring methods — Part 15: Mechanical tests on contacts and terminations — Section 8: Test 15h: Contact retention system resistance to tool application*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 512-15-8:1995, published by the International Electrotechnical Commission (IEC).
