Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Power Electrical Engineering Standards Policy Committee (PEL/-) to Technical Committee PEL/87, upon which the following bodies were represented:

- Association of Manufacturers Allied to the Electrical and Electronic Industry (BEAMA Ltd.)
- British Glass Manufacturers' Confederation
- British Industrial Furnace Constructors' Association
- British National Committee for Electroheat
- British Steel plc
- Electric Trace Heating Industry Council (ETHIC)
- Electricity Association
- Energy Industries Council
- Engineering Equipment and Materials Users' Association
- Engineering Industries Association
- Health and Safety Executive
- Induction and Dielectric Heating Manufacturers' Association
- Institution of Electrical Engineers
- Lighting Industry Federation Ltd.

This British Standard, having been prepared under the direction of the Power Electrical Engineering Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 November 1993

National foreword

This British Standard has been prepared by Technical Committee PEL/27 (Formerly PEL/87) and is the English language version of EN 60519-9:1995 *Safety in electroheat installations. Part 9: Particular requirements for high-frequency dielectric heating installations*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 519-9:1987, published by the International Electrotechnical Commission (IEC).

Cross-references. Details of International Standards quoted in this British Standard for which there are identical or technically equivalent British Standards are given in National annex NA (informative).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

English version

Safety in electroheat installations Part 9: Particular requirements for high-frequency dielectric heating installations

(IEC 519-9:1987)

Sécurité dans les installations
électrothermiques

Partie 9: Règles particulières pour les
installations de chauffage diélectrique à
haute fréquence
(CEI 519-9:1987)

Sicherheit in Elektrowärmeanlagen
Teil 9: Besondere Anforderungen für kapazitive
Hochfrequenz-Erwärmungsanlagen
(IEC 519-9:1987)

This European Standard was approved by CENELEC on 1995-09-20. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
