

Electrical supply track systems for luminaires —

Part 2: Mixed supply systems —

Section 1: Classes I and III

The European Standard EN 60570-2-1:1994 has the status of a British Standard

ICS 29.100.01; 29.140.40

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee CPL/34, Lamps and related equipment, to Technical Committee CPL/34/4, Luminaires, upon which the following bodies were represented:

- Association of Consulting Scientists
- Association of Manufacturers Allied to the Electrical and Electronic Industry (BEAMA Ltd.)
- British Broadcasting Corporation
- British Lighting Association for the Preparation of Standards (Britlaps)
- British Retail Consortium
- British Telecommunications plc
- Chartered Institution of Building Services Engineers
- Consumer Policy Committee of BSI
- Department of Trade and Industry (Consumer Safety Unit, CA Division)
- Electrical Installation Equipment Manufacturers Association (BEAMA Ltd.)
- Electricity Association
- Institute of Trading Standards Administration
- Institution of Lighting Engineers
- Lighting Association
- Lighting Industry Federation Ltd.
- National Illumination Committee of Great Britain
- Small Electrical Appliances Marketing Association

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 May 1995

National foreword

This British Standard has been prepared by Subcommittee CPL/34/4 and is the English language version of EN 60570-2-1:1994 *Electrical supply track systems for luminaires — Part 2: Mixed supply systems — Section 1: Classes I and III*, including Amendment A1, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 570-2-1:1994 published by the International Electrotechnical Commission (IEC).

This British Standard is to be read in conjunction with BS EN 60570:1994 *Electrical supply track systems for luminaires* which it supplements or modifies. The many references to IEC 570 should be read as references to BS EN 60570:1994 which is the English language version of EN 60570:1993 which was derived from IEC 570:1985 and its Amendment 2:1993.

The foreword of Amendment A1 to EN 60570-2-1 makes reference to “date of withdrawal (dow) of conflicting national standards” as “1997-04-01”. In this case the relevant national standard is BS EN 60570-2-1 but the dow relates only to those parts of the British Standard subject to Amendment No. 1. Certificates and marks will not be awarded after this date with respect to the amended British Standard. However, such certificates and marks already awarded with respect to the British Standard not incorporating Amendment No. 1 may continue to apply for production until 2002-04-01.

Cross-references

Publication referred to	Corresponding British Standard
EN 60598-1:1993 (IEC 598-1:1992)	BS EN 60598 <i>Luminaires</i> Part 1:1993 <i>General requirements and test</i>
HD 601 S1:1991 (IEC 1032:1990)	BS 3042:1992 <i>Test probes to verify protection by enclosures</i>

The European Standard is a harmonized standard in the terms of the Low Voltage Electrical Equipment (Safety) Regulations 1989.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
