

Fire hazard testing —

Part 10-2: Abnormal heat — Ball pressure test

The European Standard EN 60695-10-2:2003 has the status of a
British Standard

ICS 29.020

National foreword

This British Standard is the official English language version of EN 60695-10-2:2003, incorporating Corrigendum February 2006. It is identical with IEC 60695-10-2:2003. It supersedes BS IEC 60695-10-2:1995 which is withdrawn.

The start and finish of text introduced or altered by corrigendum is indicated in the text by tags AC AC. Tags indicating changes to CEN text carry the number of the amendment. For example, text altered by CEN Corrigendum 1 is indicated in the text by AC1 AC1.

The UK participation in its preparation was entrusted to Technical Committee GEL/89, Fire hazard testing, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 13 and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

This European Standard was approved by CENELEC on 2003-10-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Lithuania, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

Central Secretariat: rue de Stassart 35, B - 1050 Brussels

Foreword

The text of document 89/591/FDIS, future edition 2 of IEC 60695-10-2, prepared by IEC TC 89, Fire hazard testing, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as EN 60695-10-2 on 2003-10-01.

The following dates were fixed:

- latest date by which the EN has to be implemented
at national level by publication of an identical
national standard or by endorsement (dop) 2004-07-01
- latest date by which the national standards conflicting
with the EN have to be withdrawn (dow) 2006-10-01

Annexes designated "normative" are part of the body of the standard.

Annexes designated "informative" are given for information only.

In this standard, annex ZA is normative and annexes A, B and C are informative.

Annex ZA has been added by CENELEC.

Endorsement notice

The text of the International Standard IEC 60695-10-2:2003 was approved by CENELEC as a European Standard without any modification.

CONTENTS

1	Scope.....	4
2	Normative references	4
3	General description of the test.....	4
4	Test apparatus	4
4.1	Loading device	4
4.2	Test specimen support	5
4.3	Heating oven	5
4.4	Optical measuring instrument	5
5	Test specimens	5
6	Conditioning	5
7	Test procedure	6
8	Observations and measurements.....	6
9	Expression of test results	6
10	Information to be given in the relevant specification	7
Annex A (informative) Correlation between the ball pressure test and the Vicat test of ISO 306		9
Annex B (informative) Depth indentation method		10
Annex C (informative) Ball pressure test equipment manufacturers.....		11
Annex ZA (normative) Normative references to international publications with their corresponding European publications		12
Bibliography.....		13
