

Test code for the determination of airborne acoustical noise emitted by household and similar electrical appliances —

Part 2: Particular requirements —

Section 2.2 Forced draught convection heaters

The European Standard EN 60704-2-2:1994 has the status of a
British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CPL/59, Performance of household electrical appliances, upon which the following bodies were represented:

- Association of Manufacturers of Domestic Electrical Appliances
- Consumer Policy Committee of BSI
- Consumers' Association
- Department of the Environment (Energy Efficiency Office)
- Electricity Association
- Portable Electric Tool Manufacturers' Association
- Rotating Electrical Machines Association (BEAMA Ltd.)

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 May 1995

National foreword

This British Standard has been prepared by Technical Committee CPL/59 and is the English language version of EN 60704-2-2:1994 *Test code for the determination of airborne acoustical noise emitted by household and similar electrical appliances — Part 2 Particular requirements for forced draught convection heaters*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 704-2-2:1985 published by the International Electrotechnical Commission (IEC).

This Part 2 should be read in conjunction with BS EN 60704-1:1995 *Test code for the determination of airborne acoustical noise emitted by household and similar electrical appliances — Part 1 General requirements*. This standard supplements or modifies the corresponding clauses of Part 1. When a particular subclause is not mentioned in this Part 2, the subclause in Part 1 is applicable. Where this standard states “addition”, “modification” or “replacement”, the relevant requirement, test specification or explanatory matter in Part 1 should be amended accordingly.

This British Standard supersedes BS 6686-2.2:1990 (implementation of CENELEC HD 423.2.2 S1:1988) which is withdrawn.

Product certification. Users of this British Standard are advised to consider the desirability of third party certification of product conformity with this British Standard based on testing and continuing surveillance, which may be coupled with assessment of a supplier's quality systems against the appropriate Part of BS EN ISO 9000.

Enquiries as to the availability of third party certification schemes will be forwarded by BSI to the Association of British Certification Bodies. If a third party certification scheme does not already exist, users should consider approaching an appropriate body from the list of Association members.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
