Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CPL/59, Performance of household electrical appliances, upon which the following bodies were represented:

- Association of Manufacturers of Domestic Electrical Appliances
- Consumer Policy Committee of BSI
- Consumers' Association
- Department of the Environment (Energy Efficiency Office)
- Electricity Association
- Portable Electric Tool Manufacturers' Association
- Rotating Electrical Machines Association (BEAMA Ltd.)

The following body was also represented in the drafting of the standard through subcommittees and panels:

- Soap and Detergent Industry Association

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board (L/-), was published under the authority of the Standards Board and comes into effect on 15 May 1995

National foreword

This British Standard has been prepared by Subcommittee CPL/59/1 and is the English language version of EN 60704-2-3:1994 *Test code for the determination of airborne acoustical noise emitted by household and similar electrical appliances. Part 2: Particular requirements for dishwashers*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is based on IEC 704-2-3:1987 (including corrigendum December 1989), published by the International Electrotechnical Commission (IEC), with the common modifications agreed as A1:1990 to HD 423-2-3 S1:1989.

This standard should be read in conjunction with BS EN 60704-1:1995. It supplements or modifies the corresponding clauses of Part 1. When a particular subclause is not mentioned in this standard, the subclause in Part 1 is applicable. Where this standard states “addition”, “modification” or “replacement”, the relevant requirement, test specification or explanatory matter in Part 1 should be amended accordingly.

This standard supersedes BS 6686-2.3:1991 (which implemented CENELEC HD 423.2.3 S1 including amendment 1) which is withdrawn.

This standard is related to Directive 86/594/EEC.

Product certification. Users of this British Standard are advised to consider the desirability of third party certification of product conformity with this British Standard based on testing and continuing surveillance, which may be coupled with assessment of a supplier’s quality systems against the appropriate standard in the BS EN ISO 9000 series.

Enquiries as to the availability of third party certification schemes will be forwarded by BSI to the Association of British Certification Bodies. If a third party certification scheme does not already exist, users should consider approaching an appropriate body from the list of Association members.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This European Standard was approved by CENELEC on 1994-07-05. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
