Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee EPL/47, Semiconductors, upon which the following bodies were represented:

- Federation of the Electronics Industry
- Ministry of Defence
- National Supervising Inspectorate

The following bodies were also represented in the drafting of the standard through subcommittees:

- Association of Manufacturers Allied to the Electrical and Electronics Industry (BEAMA Ltd.)
- Society of British Aerospace Companies Limited

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board (L/I), was published under the authority of the Standards Board and comes into effect on 15 April 1995

National foreword

This British Standard has been prepared by Technical Committee EPL/47 and is the English language version of EN 60891:1994, *Procedures for temperature and irradiance corrections to measured I-V characteristics of crystalline silicon photovoltaic devices*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 891:1987, together with its amendment No. 1:1992, published by the International Electrotechnical Commission (IEC).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
