

# **Modular order for the development of mechanical structures for electronic equipment practices**

## **Part 2. Sectional specification — Interface co-ordination dimensions for the 25 mm equipment practice**

The European Standard EN 60917-2 : 1994 : 1994 has the status of a British Standard

UDC 621.3.049.7 : 62-772.4 : 62-112.5/.6 : 621.38/.39

## Cooperating organizations

The European Committee for Electrotechnical Standardization (CENELEC), under whose supervision this European Standard was prepared, comprises the national committees of the following countries:

|         |                |
|---------|----------------|
| Austria | Italy          |
| Belgium | Luxembourg     |
| Denmark | Netherlands    |
| Finland | Norway         |
| France  | Portugal       |
| Germany | Spain          |
| Greece  | Sweden         |
| Iceland | Switzerland    |
| Ireland | United Kingdom |

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 November 1994

## National foreword

This British Standard has been prepared under the direction of the Electrotechnical Sector Board and is the English language version of EN 60917-2 : 1994, *Modular order for the development of mechanical structures for electronic equipment practices Part 2 : Sectional specification - Interface co-ordination dimensions for the 25 mm equipment practice*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 917-2 : 1992 published by the International Electrotechnical Commission (IEC).

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

Descriptors: Electronic equipment, modular order, dimensional compatibility, interface co-ordination dimensions for the 25 mm equipment practice

English version

**Modular order for the development of mechanical  
structures for electronic equipment practices  
Part 2 : Sectional specification — Interface co-ordination  
dimensions for the 25 mm equipment practice**

(IEC 917-2 : 1992)

Ordre modulaire pour le développement des  
structures mécaniques pour les  
infrastructures électroniques  
Partie 2: Spécification intermédiaire -  
Dimensions de coordination pour les  
interfaces des infrastructures au pas  
de 25 mm  
(CEI 917-2 : 1992)

Modulordnung für die Entwicklung von  
Bauweisen für elektronische Einrichtungen  
Teil 2: Strukturnorm  
Schnittstellen-Koordinationsmaße für die  
25-mm-Bauweise  
(IEC 917-2 : 1992)

This European Standard was approved by CENELEC on 1994-03-08. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

## **Foreword**

The CENELEC questionnaire procedure, performed for finding out whether or not the international standard IEC 917-2: 1992 could be accepted without textual changes, has shown that no common modifications were necessary for the acceptance as a European Standard.

The reference document was submitted to the CENELEC members for formal vote and was approved by CENELEC as EN 60917-2 on 8 March 1994.

The following dates were fixed:

- latest date of publication  
of an identical national  
standard (dop) 1995-03-15
- latest date of withdrawal  
of conflicting national  
standards (dow) 1995-03-15

For products which have complied with the relevant national standard before 1995-03-15, as shown by the manufacturer or by a certification body, this previous standard may continue to apply for production until 2000-03-15.

Annexes designated 'normative' are part of the body of the standard. In this standard, annex ZA is normative.

## **INTRODUCTION**

**This part of IEC 917 is in accordance with the rules of the modular order determined in IEC 917, which is based on IEC Guide 103.**

**This part of IEC 917 specifies the co-ordination dimensions of a metric equipment practice containing a range of interface dimensions for cabinets, racks, subracks and chassis so that dimensional compatibility can be achieved where cabinets, racks, subracks and chassis of standard height, width and depth are installed in electronic equipment.**
