Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee EPL/100, Audio, video and multimedia systems and equipment, to Subcommittee EPL/100/2, Recording, upon which the following bodies were represented:

- Association of Professional Recording Services Limited
- British Broadcasting Corporation
- British Kinematograph, Sound and Television Society
- British Radio and Electronic Equipment Manufacturers' Association
- British Tape Industry Association
- Federation of the Electronics Industry
- Independent Television Association (ITVA)
- Royal Television Society

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 July 1996

National foreword

This British Standard has been prepared by Subcommittee EPL/100/2 and is the English language version of EN 61041-2:1996, *Non-broadcast video tape recorders — Methods of measurement — Part 2: Video characteristics chrominance SECAM*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 1041-2:1994, published by the International Electrotechnical Commission (IEC).

For ease of reference to other Parts of BS 7434, this standard has also been designated as BS 7434-2.

This British Standard was not circulated for public comment as it is only used within the French television system.

IEC 1041 consists of the following parts:

- *Part 1: General video (NTSC/PAL) and audio (longitudinal) characteristics;*
- *Part 2: Video characteristics chrominance SECAM;*
- *Part 3: Audio characteristics for FM recording.*

Cross-references

This European Standard was approved by CENELEC on 1995-11-28. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of the International Standard IEC 1041-2:1994, prepared by SC 100B, Recording, of IEC TC 100, Audio, video and multimedia systems and equipment, was submitted to the formal vote and was approved by CENELEC as EN 61041-2 on 1995-11-28 without any modification.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1996-12-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1996-12-01

Annexes designated “normative” are part of the body of the standard.

Annexes designated “informative” are given for information only.

In this standard, Annex ZA is normative and Annex A is informative.

Annex ZA has been added by CENELEC.
