

Broadcast video tape recorders — Methods of measurement —

Part 1: Mechanical measurements

The European Standard EN 61237-1:1994 has the status of a
British Standard

UDC 621.397.452:621.317.08

Cooperating organizations

The European Committee for Electrotechnical Standardization (CENELEC), under whose supervision this European Standard was prepared, comprises the national committees of the following countries:

Austria	Italy
Belgium	Luxembourg
Denmark	Netherlands
Finland	Norway
France	Portugal
Germany	Spain
Greece	Sweden
Iceland	Switzerland
Ireland	United Kingdom

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1995

National foreword

This British Standard has been prepared under the direction of the Electrotechnical Sector Board and is the English language version of EN 62379-1:1994 *Broadcast video tape recorders — Methods of measurement. Part 1: Mechanical measurements*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 1237-1:1994, published by the International Electrotechnical Commission (IEC).

BS EN 61237 consists of the following Parts:

- *Part 1: Mechanical measurements;*
- *Part 2: Electrical measurements for analogue composite video signals;*
- *Part 3: Electrical measurements for analogue component video signals;*
- *Part 4: Measurement of audio performance-analogue.*

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Méthodes de mesure
Partie 1: Mesures mécaniques
(CEI 1237-1:1994)

Meßverfahren für Videobandgeräte für den
Rundfunk
Teil 1: Mechanische Messungen
(IEC 1237-1:1994)

This European Standard was approved by CENELEC on 1994-03-08. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of document 60B(C0)158, as prepared by Sub-committee 60B: Video recording, of IEC Technical Committee 60: Recording, was submitted to the IEC-CENELEC parallel vote in April 1993.

The reference document was approved by CENELEC as EN 61237-1 on 8 March 1994.

The following dates were fixed:

- latest date of publication of an identical national standard (dop) 1995-06-01
- latest date of withdrawal of conflicting national standards (dow) 1995-06-01

Annexes designated “normative” are part of the body of the standard. Annexes designated “informative” are given only for information. In this standard, Annex A and Annex ZA are normative and Annex B is informative.

Contents

	Page
Foreword	2
1 Scope	3
2 Normative references	3
3 General	3
4 Test conditions	3
5 Measuring equipment	3
5.1 Mechanical measurements	3
5.2 Optical measurements	3
6 Recorder measurements	4
6.1 Diameter of drum	4
6.2 Projection of video head pole tips	4
6.2.1 Mechanical measurement	4
6.2.2 Optical measurement	4
6.3 Gap width of video heads	4
6.4 Coplanarity error of video heads	4
7 Measurements on recorded tape	4
7.1 Tape speed and pitch of the video tracks	5
7.1.1 Tape speed v (first method)	5
7.1.2 Track pitch J (first method)	5
7.1.3 Tape speed and pitch of the video tracks (second method)	5
7.2 Position of the video reference point (VRP)	5
7.2.1 Measurement of the VRP position (first method)	6

	Page
7.2.2 Tracking and drum phase error (second method)	6
7.3 Location of records on sound and time code tracks	6
7.3.1 Track location to the reference tape edge	6
7.3.2 Longitudinal location of records	6
7.4 Video track geometry	6
7.4.1 Video track width I	6
7.4.2 Cross-tape measuring technique (first method)	6
7.4.3 Dynamic track measurement (second method)	7
Annex A (normative) Magnetic development of recorded tape	11
Annex B (informative) Bibliography	11
Annex ZA (normative) Other international publications quoted in this standard with the references of the relevant European publications	12
