

Process measurement and control devices — General methods and procedures for evaluating performance —

Part 1: General considerations

The European Standard EN 61298-1:1995 has the status of a British Standard

ICS 25.040.50; 35.240.50

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee GEL/65, Measurement and control, upon which the following bodies were represented:

- British Coal Corporation
- British Gas plc
- British Nuclear Fuels plc
- Electrical Contractors Association
- Electricity Association
- Energy Industries Council
- GAMBICA (BEAMA Ltd.)
- Health and Safety Executive
- Institution of Gas Engineers

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Pressure Gauge Manufacturers' Association
- Department of Trade and Industry (National Engineering Laboratory)
- Department of Trade and Industry (Services Management Division)
- Engineering Industries Association
- Institute of Materials
- Institution of Electrical Engineers

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 June 1996

National foreword

This British Standard has been prepared by Technical Committee GEL/65, and is the English language version of EN 61298-1:1995 *Process measurement and control devices — General methods and procedures for evaluating performance — Part 1: General considerations*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 1298-1:1995 published by the International Electrotechnical Commission (IEC).

IEC 1298 consists of the following Parts under the general title: *Process measurement and control devices — General methods and procedures for evaluating performance*.

- *Part 1: General considerations;*
- *Part 2: Tests under reference conditions;*
- *Part 3: Tests for the effects of influence quantities;*
- *Part 4: Evaluation report content.*

Additional information. The notes in Annex A have been added by CENELEC.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 14, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This European Standard was approved by CENELEC on 1995-09-20. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of document 65B/228/DIS, future edition 1 of IEC 1298-1, prepared by SC 65B, Devices, of IEC TC 65, Industrial-process measurement and control, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as EN 61298-1 on 1995-09-20.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1996-07-01
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1996-07-01

Annexes designated “normative” are part of the body of the standard. Annexes designated “informative” are given for information only. In this standard, Annex ZA is normative and Annex A is informative. Annex ZA has been added by CENELEC.

Contents

	Page		Page
Foreword	2	6.7 Selection	8
Introduction	3	6.8 Delivery of the devices	9
1 Scope	3	6.9 Identification and inspection	9
2 Normative references	3	7 General testing procedures and precautions	9
3 Definitions	3	7.1 Test laboratory	9
4 Test categories	5	7.2 Preparation for the tests	9
5 General criteria	6	7.3 Choice of reference measuring equipment	9
5.1 Realistic operating conditions	6	7.4 Input variable quality	10
5.2 Economic aspects	6	7.5 Tapping	10
5.3 Replication of the tests and comparability of the results	6	7.6 Checking of calibration made prior to delivery	10
5.4 Processing the results	6	7.7 Sequence of tests	10
5.5 Independence of the results of a test from the effects of other tests	6	7.8 Interruption and duration of each series of measurements	10
6 General conditions for tests and samples	7	7.9 Anomalies and failures during tests	10
6.1 Environmental test conditions	7	7.10 Re-start of a test	10
6.2 Supply conditions	7	7.11 Setting of adjustments	11
6.3 Load conditions	8	7.12 Preconditioning	11
6.4 Mounting position	8	7.13 Calibration adjustments of lower range value and span	11
6.5 Externally induced vibrations	8	7.14 Constancy of the operating conditions and settings	11
6.6 External mechanical constraints	8	7.15 Input/output variable relationships	11
		7.16 Error assessment	11
		7.17 Symbols and units of measurement	12
		7.18 Test report and documentation	12
		Annex A (informative) Bibliography	13
		Annex ZA (normative) Normative references to international publications with their corresponding European publication	14
