Fibre optic interconnecting devices and passive components — Basic test and measurement procedures

Part 3-25: Examinations and measurements —
Concentricity of non-angled ferrules and
non-angled ferrules with fibre installed

National foreword

This British Standard is the UK implementation of EN 61300-3-25:2016. It is identical to IEC 61300-3-25:2016. It supersedes BS EN 61300-3-25:2013 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee GEL/86, Fibre optics, to Subcommittee GEL/86/2, Fibre optic interconnecting devices and passive components.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
