Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CPL/59, Performance of household electrical appliances, upon which the following bodies were represented:

- Association of Manufacturers of Domestic Electrical Appliances
- Consumer Policy Committee of BSI
- Consumers' Association
- Department of the Environment (Energy Efficiency Office)
- Electricity Association
- Portable Electric Tool Manufacturers' Association
- Rotating Electrical Machines Association (BEAMA Ltd.)

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Good Housekeeping Institute

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1995

National foreword

This British Standard has been prepared by Technical Committee CPL/59 and is the English language version of EN 61309:1995 *Deep-fat fryers for household use. Methods for measuring the performance*, published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 1309:1995, published by the International Electrotechnical Commission (IEC).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

English version

Deep-fat fryers for household use Methods for measuring the performance

(IEC 1309:1995)

Friteuses à usage domestique
Méthodes de mesure de l'aptitude à la
fonction
(CEI 1309:1995)

Fritiergeräte für den Hausgebrauch
Verfahren zur Prüfung der
Gebrauchseigenschaften
(IEC 1309:1995)

This European Standard was approved by CENELEC on 1995-02-15. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of document 59G(CO)35, future edition 1 of IEC 1309, prepared by SC 59G, Small kitchen appliances, of IEC TC 59, Performance of household electrical appliances, was submitted to the IEC-CENELEC parallel vote and was approved by CENELEC as EN 61309 on 1995-02-15.

The following dates were fixed:

- latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 1996-02-15
- latest date by which the national standards conflicting with the EN have to be withdrawn (dow) 1996-02-15

Contents

	Page
Foreword	2
1 Scope and object	3
1.1 Scope	3
1.2 Aspects excluded from the scope	3
2 Normative references	3
3 Definitions	3
4 List of measurements	4
5 General conditions for measurements	4
5.1 Electrical supply	4
5.2 Ambient temperature	5
5.3 Wooden support	5
5.4 Fat or oil used for the tests	5
5.5 Deep-frozen French fried potatoes used for the tests	5
5.6 Equipment and operation of the deep-fat fryer	5
5.7 Collection of data prior to the tests	5
6 Overall dimensions	5
7 Mass	6
8 Length of power supply cord or cord set	6
9 Oil/fat temperature	6
10 Minimum oil/fat capacity	6
11 Maximum oil/fat capacity	6
12 Maximum frying capacity	6
13 Specific frying capacity	6
14 Heating-up time	6
15 Processing time	7
16 Energy consumption	8
17 Frying result	8
17.1 Determination of the brownness	9
17.2 Determination of the fat content	9
17.3 Texture	10
18 Pouring ability and effectiveness of the oil/fat filter	10
18.1 Procedure	11
18.2 Results	11
