

Protective devices against diagnostic medical X-radiation —

Part 2: Specification for protective glass plates

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee HCC/74, Radiation protection, upon which the following bodies were represented:

- Association of X-ray Equipment Manufacturers (BEAMA Ltd.)
- British Dental Association
- British Institute of Radiology
- British Medical Association
- College of Radiographers
- Department of Health
- Flat Glass Manufacturers' Association
- Health and Safety Executive
- Industrial Safety (Protective Equipment) Manufacturers' Association
- Institute of Physical Sciences in Medicine (Ipsm)
- Ministry of Defence
- National Radiological Protection Board
- Royal College of Radiologists
- Society of X-ray Technology

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 June 1995

National foreword

This British Standard is the official English language version of EN 61331-2:2002. It is identical with IEC 61331-2:1994.

The UK participation in its preparation was entrusted to Technical Committee HCC/74, Radiation protection, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Additional information

The following print types are used in this standard:

Terms defined in BS 6641: SMALL CAPITALS.

For the purposes of this British Standard, any references to IEC page numbers in the text should be ignored.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover.

This European Standard was approved by CENELEC on 2001-12-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
