Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee AGE/32, Agricultural implements and trailers, upon which the following bodies were represented:

- Agricultural and Allied Workers National Trade Group
- Agricultural Engineers' Association
- British Fluid Power Association
- Department of Transport
- Health and Safety Executive
- Ministry of Agriculture, Fisheries and Food
- National Farmers' Union
- Silsoe College, Cranfield Institute of Technology
- Silsoe Research Institute

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1997

National foreword

This British Standard has been prepared by Technical Committee AGE/32 and is the English language version of EN 708:1996 *Agricultural machinery — Soil working machines with powered tools — Safety*, including amendment A1:2000, published by the European Committee for Standardization (CEN).

The United Kingdom as a member of CEN is obliged to publish EN 708:1996 as a British Standard. However attention is drawn to the fact that during the development of this European Standard the United Kingdom has consistently voted against its approval as an EN. The UK believes that the standard is deficient in certain safety requirements compared with the state of the art for these machines in the UK and that in consequence the standard fails to meet some of the essential requirements of the EC Machinery Safety Directive, 89/392 and amendments, which it claims to meet.

Although CEN approved EN 708:1996 for publication in its present form there is no reference to it in the Official Journal of the European Communities. It should therefore be noted that until the standard is listed in the Official Journal, compliance with it will not give automatic presumption of compliance either with the relevant essential requirements of the EC Machinery Directive or the UK Supply of Machinery (Safety) Regulations 1992 as amended in 1994.

As part of BSI's duty of care we draw attention to users of BS EN 708:1997 of our concern that the standard contains inadequate requirements for protection of personnel against unintentional contact with the powered tools specifically with regard to clause 4.2.2 and the absence of a strength requirement for barriers and lateral guards. BSI will assume no liability whatsoever for any failure on the part of any user of this standard to consider these aspects.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled "International Standards Correspondence Index", or by using the "Find" facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 15 and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

Sidelining in this document indicates the most recent changes by amendment.

Descriptors: Agricultural machinery, tilling equipment, safety of machines, safety requirements, accident prevention, safety devices, locking devices, hazards, marking

English version

Agricultural machinery — Soil working machines with powered tools — Safety

(includes amendment A1:2000)

Matériel agricole — Machines de travail du sol à outils animés — Sécurité
(inclut l'amendement A1:2000)

Landmaschinen — Bodenbearbeitungsgeräte mit kraftbetriebenen Werkzeugen — Sicherheit
(enthält Änderung A1:2000)

This European Standard was approved by CEN on 1996-01-15. Amendment A1 was approved by CEN on 2000-01-23. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard was prepared by the Technical Committee CEN/TC 144, Tractors and machinery for agriculture and forestry, of which the secretariat is held by AFNOR.

This European Standard has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EC Directive(s).

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by August 1996, and conflicting national standards shall be withdrawn at the latest by August 1996.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Foreword to amendment A1

This amendment EN 708:1996/A1:2000 to EN 708:1996 has been prepared by Technical Committee CEN/TC 144, Tractors and machinery for agriculture and forestry, the Secretariat of which is held by AFNOR.

This amendment to the European Standard EN 708:1996 shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 2000, and conflicting national standards shall be withdrawn at the latest by September 2000.

This amendment to the European Standard EN 708:1996 has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative Annex ZA, which is an integral part of this standard.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
