Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee RPI/13, Advanced technical ceramics, upon which the following bodies were represented:

- AEA Technology
- Aluminium Federation
- British Ceramic Research Ltd.
- British Industrial Ceramic Manufacturers' Association
- Department of Trade and Industry (National Physical Laboratory)
- Flat Glass Manufacturers' Association
- GAMBICA (BEAMA Ltd.)
- Institute of Refractories Engineers
- Ministry of Defence
- Refractories Association of Great Britain
- Society of British Aerospace Companies Ltd.
- University of Manchester

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 August 1996

National foreword

This British Standard has been prepared by the Technical Committee RPI/13 and is the English language version of EN 725-5 : 1996 *Advanced technical ceramics — Methods of test for ceramic powders — Part 5: Determination of the particle size distribution*, published by the European Committee for Standardization (CEN).

EN 725-5 : 1996 was produced as a result of international discussions in which the United Kingdom took an active part.

NOTE. International and European Standards as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London, W4 4AL

Compliance with a British Standard does not of itself confer immunity from legal obligations.

ICS 81.060.10

Descriptors: Ceramics, powdery materials, grain size analysis, particle size, analysis methods, sedimentation, radiation tests, laser radiation, diffraction

English version

Advanced technical ceramics — Methods of test for ceramic powders — Part 5: Determination of the particle size distribution

Céramiques techniques avancées — Méthodes
d'essai pour les poudres céramiques — Partie 5:
Détermination de la distribution granulométrique

Hochleistungskeramik — Prüfverfahren keramischer
Pulver — Teil 5: Bestimmung der
Teilchengrößenverteilung

This European Standard was approved by CEN on 1995-11-30. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
