

Couplers, spigot pins and baseplates for use in falsework and scaffolds

Part 3: Plain base plates and spigot pins — Requirements and test procedures

ICS 91.220

National foreword

This British Standard is the UK implementation of EN 74-3:2007.

The UK participation in its preparation was entrusted by Technical Committee B/514, Access and support equipment, to Subcommittee B/514/21, Access and working scaffolds and their components (props, tubes and couplers).

A list of organizations represented on this committee can be obtained on request to its secretary.

The EN 74 series is in three parts which together replace EN 74:1988. EN 74:1988 was implemented in the UK as BS 1139-2.1:1991, but was withdrawn on the UK implementation of EN 74-1:2005.

BS EN 74 Couplers, spigot pins and baseplates for use in falsework and scaffolds consists of the following parts:

Part 1 (2005) Couplers for tubes - Requirements and test procedures

Part 2 (2008) Special couplers - Requirements and test procedures

Part 3 (2007) Plain base plates and spigot pins - Requirements and test procedures

The UK Subcommittee is preparing a National Application Document (NAD) to help users in the application of the EN 74 series. Any comments on the use of this part, or of the others in the series, or errors that are identified in the text should be notified to the B/514 Committee Secretary, BSI, 389 Chiswick High Road, London W4 4AL so that they can be taken into account in developing the NAD.

Additional information

For other couplers used in the UK, but not included in BS EN 74-2 or BS EN 74-3, further information may be found in BS 1139-2.2:2009.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 June 2010

This European Standard was approved by CEN on 15 March 2007.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 74-3:2007) has been prepared by Technical Committee CEN/TC 53 “Temporary works equipment”, the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 2007, and conflicting national standards shall be withdrawn at the latest by October 2007.

This document together with EN 74-1:2005 supersedes EN 74:1988.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
