Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee WEE/39, Welding consumables, upon which the following bodies were represented:

- Aluminium Federation
- Associated Offices Technical Committee
- Association of Welding Distributors
- British Association for Brazing and Soldering
- British Compressed Gases Association
- British Constructional Steelwork Association Ltd.
- British Iron and Steel Producers' Association
- Electricity Association
- Engineering Equipment and Materials Users' Association
- Lloyd's Register of Shipping
- Magnesium Industry Council
- Power Generation Contractors Association (PGCA (BEAMA Ltd.))
- Process Plant Association
- Stainless Steel Wire Industry Association
- Welding Institute
- Welding Manufacturers' Association (BEAMA Ltd.)

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1996

National foreword

This British Standard has been prepared by Technical Committee WEE/39 and is the English language version of EN 756 : 1995 *Welding consumables — Wire electrodes and wire-flux combinations for submerged arc welding of non alloy and fine grain steels — Classification* published by the European Committee for Standardization (CEN).

EN 756 was produced as a result of international discussions in which the United Kingdom took an active part.

BS EN 756 : 1996 partially supersedes BS 4165 : 1984 which will be withdrawn upon publication of BS EN 760.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
