

Pressure Equipment —

Part 5: Compliance and Inspection Documentation of Materials

The European Standard EN 764-5:2002 has the status of a
British Standard

ICS 23.020.30

National foreword

This British Standard is the official English language version of EN 764-5:2002.

When the reference to this European Standard has been published in the *Official Journal of the European Communities* (OJ), compliance with it will confer a presumption of conformity with the essential requirements covered by this standard in respect of the Pressure Equipment Directive (97/23/EC).

The UK participation in its preparation was entrusted by Technical Committee PVE/1, Pressure vessels, to Subcommittee PVE/1/14, Materials selection, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Engineering Sector Policy and Strategy Committee, was published under the authority of the Standards Policy and Strategy Committee on 4 December 2002

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 13 and a back cover.

English version

Pressure Equipment - Part 5: Compliance and Inspection Documentation of Materials

Equipements sous pression - Partie 5: Documents de
conformité et de contrôle des matériaux

Druckgeräte - Teil 5: Prüfbescheinigungen für metallische
Werkstoffe und Übereinstimmung mit der
Werkstoffspezifikation

This European Standard was approved by CEN on 19 August 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document EN 764-5:2002 has been prepared by Technical Committee CEN/TC 54 "Unfired pressure vessels", the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by April 2003, and conflicting national standards shall be withdrawn at the latest by April 2003.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of the EU Directive 97/23/EC.

For relationship with the EU Directive, see informative annex ZA which is an integral part of this document.

This European Standard "Pressure equipment" consists of seven Parts which are:

- $\frac{3}{4}$ *Part 1: Pressure, temperature, volume, nominal size.*
- $\frac{3}{4}$ *Part 2: Quantities, symbols and units.*
- $\frac{3}{4}$ *Part 3: Definition of parties involved.*
- $\frac{3}{4}$ *Part 4: Establishment of technical delivery conditions for materials.*
- $\frac{3}{4}$ *Part 5: Compliance and Inspection Documentation of Materials;*
- $\frac{3}{4}$ *Part 6: Operating instructions.*
- $\frac{3}{4}$ *Part 7: Safety systems and unfired pressure equipment.*

Annex A is normative.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
