

Methods of test for masonry units —

Part 20: Determination of flatness of faces of masonry units

This European Standard EN 772-20:2000, incorporating amendment A1:2005, has the status of a British Standard

ICS 91.080.30; 91.100.15

National foreword

This British Standard is the official English language version of EN 772-20:2000, including amendment A1:2005, which is included in a package of new European Standards being prepared by CEN/TC 125 relating to aggregate concrete and manufactured stone and natural stone masonry units. No British Standard is superseded.

The start and finish of text introduced or altered by CEN amendment is indicated in the text by tags **A1** **A1**. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by **A1** **A1**.

The UK participation in its preparation was entrusted by Technical Committee B/519, Masonry and associated tests, to Subcommittee B/519/1, Masonry units, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

**Methods of test for masonry units - Part 20: Determination of
flatness of faces of masonry units**
(includes amendment A1:2005)

Méthodes d'essai des éléments de maçonnerie - Partie 20:
Détermination de la planéité des éléments de maçonnerie
en béton de granulats, en pierre naturelle et en pierre
reconstituée
(inclut les amendement A1:2005)

Prüfverfahren für Mauersteine - Teil 20: Bestimmung der
Ebenheit von Mauersteinen aus Beton, Betonwerksteinen
und Natursteinen
(enthält Änderungen A1:2005)

This European Standard was approved by CEN on 17 February 2000; amendment A1 was approved by CEN on 29 December 2004.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
