Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/540, Energy performance of materials, components and buildings, to Subcommittee B/540/1, European Standards for thermal insulation, upon which the following bodies were represented:

- Association for the Conservation of Energy
- Association of Building Component Manufacturers
- Association of Lightweight Aggregate Manufacturers
- Autoclaved Aerated Concrete Products Association
- Brick Development Association
- British Rigid Urethane Foam Manufacturers' Association
- British Vermiculite Association
- Building Employers' Confederation
- Cavity Foam Bureau
- Chartered Institute of Building
- Chartered Institution of Building Services Engineers
- Concrete Block Association
- Cork Industry Federation
- Department of the Environment (Building Research Establishment)
- Department of the Environment (Construction Directorate)
- Department of Trade and Industry (National Physical Laboratory)
- Eurisol (UK Mineral Wool Association)
- European Phenolic Foam Association
- National House-building Council
- Royal Institute of British Architects
- Thermal Insulation Manufacturers' and Suppliers' Association (TIMSA)
- Thermal Insulations Contractors' Association
- Wood Wool Slab Manufacturers' Association

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 December 1996

National foreword

This British Standard has been prepared by Subcommittee B/540/1 and is the English language version of EN 826 : 1996 *Thermal insulating products for building applications — Determination of compression behaviour* published by the European Committee for Standardization (CEN).

EN 826 was produced as a result of international discussion in which the United Kingdom took an active part.

This British Standard is one of several general test methods for thermal insulating products for building applications, the EN versions of which are being prepared in CEN/TC 88. This British Standard will be implemented in the United Kingdom, and all conflicting national standards or Parts of standards withdrawn, when the complete series of standards comprising test methods and product specifications has been published.

Cross-reference

Publication referred to	Corresponding British Standard
ISO 5725 : 1986	BS 5497 <i>Precision of test methods</i> Part 1 : 1987 <i>Guide for the determination of repeatability and reproducibility for a standard test method by inter-laboratory tests</i>

NOTE. International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

ICS 91.120.10

Descriptors: Buildings, thermal insulation, thermal insulating materials, compression tests, determination, compressive strength

English version

Thermal insulating products for building applications — Determination of compression behaviour

Produits isolants thermiques destinés aux
applications du bâtiment — Détermination du
comportement en compression

Wärmedämmstoffe für das Bauwesen —
Bestimmung des Verhaltens bei
Druckbeanspruchung

This European Standard was approved by CEN on 1996-02-09. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
