Adhesives - Wettability - Determination by measurement of contact angle and surface free energy of solid surface

National foreword

This British Standard is the UK implementation of EN 828:2013. It supersedes BS EN 828:1998 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/52, Adhesives.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
