Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee WEE/2, Welding tests, upon which the following bodies were represented:

- Aluminium Federation
- Association of Consulting Scientists
- British Constructional Steelwork Association Ltd.
- British Iron and Steel Producers' Association
- Electricity Association
- Health and Safety Executive
- Institution of Structural Engineers
- Lloyd's Register of Shipping
- Ministry of Defence
- Power Generation Contractors Association [PGCA (BEAMA Ltd.)]
- TWI
- Welding Manufacturers' Association (BEAMA Ltd.)

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1995

National foreword

This British Standard has been prepared by Technical Committee WEE/2 and is the English language version of EN 875:1995 *Destructive tests on welds in metallic materials — Impact tests — Test specimen location, notch orientation and examination* published by the European Committee for Standardization (CEN). EN 875 was produced as a result of international discussions in which the United Kingdom took an active part. BS EN 875:1995 supersedes tests detailed in BS 709:1983 which have been deleted by amendment.

Cross-references

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10, an inside back cover and a back cover. This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Destructive tests on welds in metallic materials — Impact tests — Test specimen location, notch orientation and examination

Essais destructifs des soudures sur matériaux métalliques — Essai de flexion par choc — Position de l'éprouvette, orientation de l'entaille et examen

Zerstörende Prüfung von Schweißverbindungen an metallischen Werkstoffen — Kerbschlagbiegeversuch — Probenlage, Kerbrichtung und Beurteilung

This European Standard was approved by CEN on 1995-07-01. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
