Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee TCI/68, Industrial textiles, upon which the following bodies were represented:

- Anglo-Scottish Fish Producers' Organisation Limited
- British Apparel and Textile Confederation
- British Marine Equipment Council
- British Paediatric Association
- British Polyolefin Textiles Association
- Camping and Caravanning Club Limited
- Camping and Outdoor Leisure Association
- Confederation of British Wool Textiles Limited
- Consumer Policy Committee of BSI
- Department of Trade and Industry
- Federation of Wire Rope Manufacturers of Great Britain
- Home Office
- Institute of Trading Standards Administration
- Institution of Fire Engineers
- Made-up Textiles Association
- National Federation of Master Steeplejacks and Lightning Conductor Engineers
- Oldham and Rochdale Textile Employers Association
- Road Haulage Association Limited
- SATRA Footwear Technology Centre
- Scottish Office (Agriculture and Fisheries Department)
- Textile Finishers' Association

The following body was also represented in the drafting of the standard through a subcommittee and working group:

- Association of Load Restraint Equipment Manufacturers

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 November 1995

National foreword

This British Standard has been prepared by Technical Committee TCI/68, and is the English language version of EN 919:1995 *Fibre ropes for general service — Determination of certain physical and mechanical properties*, published by the European Committee for Standardization (CEN).

This British Standard partly supersedes BS 5053:1985 which is withdrawn.

Cross-reference

Publication referred to	Corresponding British Standard
EN 20139	BS EN 20139:1992 <i>Textiles — Standard atmospheres for conditioning and testing</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 59.080.50

Descriptors: Textiles, cordages, tests, determination, physical properties, mechanical properties, mass, rope pitch, elongation, tensile strength

English version

Fibre ropes for general service — Determination of certain physical and mechanical properties

Cordages en fibres pour usages divers —
Détermination de certaines caractéristiques
physiques et mécaniques

Faserseile für allgemeine Verwendung —
Bestimmung einiger physikalischer und
mechanischer Eigenschaften

This European Standard was approved by CEN on 1995-07-02. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by the Technical Committee CEN/TC 248, Textiles and textile products, of which the secretariat is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 1996, and conflicting national standards shall be withdrawn at the latest by February 1996.

According to the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Contents

	Page
Foreword	2
1 Scope	3
2 Normative reference	3
3 Principle	3
4 Apparatus	3
5 Sampling	3
6 Test pieces	4
7 Conditioning	4
8 Procedure	4
9 Expression and interpretation of results	7
10 Test report	7
11 Determination of water repellency	7
12 Determination of lubrication and finish content	8
Annex A (normative) Reference tension to be applied to ropes when measuring linear density and lay	10
Annex B (normative) Special procedure for determination of high breaking strengths	11
Annex C (normative) Determination of the load-elongation coordinates on a "special" test piece	12
Annex D (normative) Alternative method for initial measurements of larger ropes	12
Annex E (informative) Bibliography	12
Figure 1 — Length of lay for laid ropes	5
Figure 2 — Length of plait pitch for 8-strand rope	5
Figure 3 — Effective length L_u for each type of testing machine	6
Table 1 — Effective lengths	4
Table 2 — Length of whipping	8
Table A.1 — Reference tension to be applied to ropes when measuring linear density and lay	10
Table B.1 — Realization factors, r	11
