

Tests for general properties of aggregates —

Part 3: Procedure and terminology for simplified petrographic description

The European Standard EN 932-3:1996, with the incorporation of amendment 1:2003, has the status of a British Standard

ICS 91.100.20

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee B/502, Aggregates, upon which the following bodies were represented:

- Association of Consulting Engineers
- Association of Lightweight Aggregate Manufacturers
- British Aggregate Construction Materials Industries
- British Cement Association
- British Iron and Steel Producers' Association
- British Precast Concrete Federation Ltd.
- British Ready Mixed Concrete Association
- Department of the Environment
- Department of the Environment (Building Research Establishment)
- Department of Transport (Highways Agency)
- Electricity Association
- Institute of Concrete Technology
- Institution of Civil Engineers
- Institution of Structural Engineers
- Sand and Gravel Association Limited
- Society of Chemical Industry

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Civil Engineering Test Equipment Manufacturers' Association
- County Surveyors' Society
- Department of Trade and Industry (National Measurement Accreditation Service)

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 January 1997

National foreword

This British Standard has been prepared by Technical Committee B/502. It is the English language version of EN 932-3:1996, *Tests for general properties of aggregates — Part 3: Procedure and terminology for simplified petrographic description*, including amendment 1:2003, published by the European Committee for Standardization (CEN).

The start and finish of text introduced or altered by amendment is indicated in the text by tags **A1** **A1**. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by **A1** **A1**.

It forms part of a group of European Standards dealing with test methods for aggregates which are being developed by CEN/TC 154 to verify requirements which will be specified in European Product Standards for aggregates for various end uses.

It is the intention that this standard will be included in a “package” of European Standards to be declared by CEN/TC 154. It does not replace any current British Standard.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 9 and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

Descriptors: Aggregates, tests, characteristics, petrography, rocks, samples, nomenclature

English version

Tests for general properties of aggregates — Part 3: Procedure and terminology for simplified petrographic description

(includes amendment A1:2003)

Essais pour déterminer les propriétés générales
des granulats —

Partie 3: Procédure et terminologie pour la
description pétrographique simplifiée
(inclut l'amendement A1:2003)

Prüfverfahren für allgemeine Eigenschaften
von Gesteinskörnungen —

Teil 3: Durchführung und Terminologie einer
vereinfachten petrographischen Beschreibung
(enthält Änderung A1:2003)

This European Standard was approved by CEN on 1996-07-26; amendment A1 was approved by CEN on 1 August 2003. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.
