

BSI Standards Publication

Semiconductor devices - Semiconductor interface for automotive vehicles

Part 2: Efficiency evaluation methods of wireless power transmission using resonance for automotive vehicles sensors

National foreword

This British Standard is the UK implementation of EN IEC 62969-2:2018. It is identical to IEC 62969-2:2018.

The UK participation in its preparation was entrusted to Technical Committee EPL/47, Semiconductors.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

English Version

Semiconductor devices - Semiconductor interface for automotive vehicles - Part 2: Efficiency evaluation methods of wireless power transmission using resonance for automotive vehicles sensors
(IEC 62969-2:2018)

Dispositifs à semiconducteurs - Interface à semiconducteurs pour les véhicules automobiles - Partie 2: Méthodes d'évaluation du rendement de la transmission d'énergie sans fil par résonance pour les capteurs de véhicules automobiles
(IEC 62969-2:2018)

Halbleiterbauelemente - Halbleiterschnittstelle für Automobile - Teil 2: Verfahren zur Effizienz-Bewertung drahtloser Leistungsübertragung mittels Resonanz bei Automobil-Sensoren
(IEC 62969-2:2018)

This European Standard was approved by CENELEC on 2018-04-12. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

European foreword

The text of document 47/2450/FDIS, future edition 1 of IEC 62969-2, prepared by IEC/TC 47 "Semiconductor devices" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as EN IEC 62969-2:2018.

The following dates are fixed:

- latest date by which the document has to be (dop) 2019-01-12
implemented at national level by
publication of an identical national
standard or by endorsement
- latest date by which the national (dow) 2021-04-12
standards conflicting with the
document have to be withdrawn

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

Endorsement notice

The text of the International Standard IEC 62969-2:2018 was approved by CENELEC as a European Standard without any modification.

CONTENTS

FOREWORD.....	3
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 Testing methods	6
4.1 General.....	6
4.2 RF power generation efficiency.....	7
4.3 RF coupling efficiency.....	8
4.4 RF rectifying efficiency.....	9
4.5 DC-DC converting efficiency	10
4.6 System efficiency.....	11
Figure 1 – Schematic diagram of wireless power transmission system	7
Figure 2 – Measurement schematics for RF power generation efficiency.....	8
