

Medical suction equipment —

Part 2: Manually powered suction equipment

The European Standard EN ISO 10079-2:1996 has the status of a British Standard

ICS 11.140

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Health Care Standards Policy Committee (HCC/-) to Technical Committee HCC/4, upon which the following bodies were represented:

- Association of Anaesthetists of Great Britain and Ireland
- British Anaesthetic and Respiratory Equipment Manufacturers' Association
- British Association of Otolaryngologists
- British Dental Trade Association
- British Society for Restorative Dentistry
- British Surgical Trades Association
- Department of Health
- Electro Medical Trade Association Limited
- Intensive Care Society
- Medical Sterile Products Association
- Ministry of Defence

This British Standard, having been prepared under the direction of the Health Care Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 February 1993

National foreword

This Part of BS 7259 has been prepared under the direction of the Health Care Standards Policy Committee and is identical with ISO 10079-2:1992 *Medical suction equipment — Part 2: Manually powered suction equipment*, prepared under the direction of Technical Committee 121, Anaesthetic and respiratory equipment, of the International Organization for Standardization (ISO).

In 1996 the European Committee for Standardization (CEN) accepted ISO 10079-2:1992 as European Standard EN ISO 10079-2:1996. As a consequence of implementing the European Standard, this British Standard is renumbered as BS EN ISO 10079-2:1997.

Attention is drawn to BS EN ISO 10079-3 which specifies requirements for non-electrical medical suction equipment powered from a vacuum or pressure source and to BS EN ISO 10079-1 which specifies requirements for safety of electrically-powered medical suction equipment.

Cross-references

International standard	Corresponding British Standard
ISO 5356-1:1987	BS 3849 <i>Conical connectors for anaesthetic and respiratory equipment</i> Part 1:1988 <i>Specification for cones and sockets (excluding 8.5 mm size)</i> (Identical)

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 14, an inside back cover and a back cover. This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This European Standard was approved by CEN on 1996-04-05. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of the International Standard ISO 10079-2:1992 from Technical Committee ISO/TC 121 Anaesthetic and respiratory equipment, of the International Organization for Standardization (ISO) has been taken over as a European Standard by the Technical Committee CEN/TC 215, Respiratory and anaesthetic equipment, the secretariat of which is held by BSI.

This European Standard has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by November 1996, and conflicting national standards shall be withdrawn at the latest by June 1998.

ISO 10079 consists of the following parts, under the general title *Medical suction equipment*:

- *Part 1: Electrically powered suction equipment;*
- *Part 2: Manually powered suction equipment;*
- *Part 3: Suction equipment powered from vacuum or pressure source.*

According to CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

For this relationship with EU Directive(s), see informative Annex ZA, which is an integral part of this standard. Annex A forms an integral part of EN 10079-2. Annex B and Annex C are given for information only.
