

Water quality —

**Determination of dissolved fluoride,
chloride, nitrite orthophosphate,
bromide, nitrate and sulfate ions, using
liquid chromatography of ions —**

**Part 1: Method for water with low
contamination**

The European Standard EN ISO 10304-1:1995 has the status of a
British Standard

Cooperating organizations

The European Committee for Standardization (CEN), under whose supervision this European Standard was prepared, comprises the national standards organizations of the following countries:

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standard
Finland	Suomen Standardisoimisliito, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Technological Institute of Iceland
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxembourg	Inspection du Travail et des Mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português da Qualidade
Spain	Asociación Española de Normalización y Certificación
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard, having been prepared under the direction of the Environment and Pollution Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 May 1995

National foreword

This British Standard has been prepared under the direction of the Environment and Pollution Standards Policy Committee and is the English language version of EN ISO 10304-1:1995 *Water quality — Determination of dissolved fluoride, chloride, nitrite, orthophosphate, bromide, nitrate and sulfate ions, using liquid chromatography of ions — Part 1: Method for water with low contamination*, published by the European Committee for Standardization (CEN). It is identical with ISO 10304-1:1992, published by the International Organization for Standardization (ISO).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 13.060.40

Descriptors: Water, quality, water pollution, soluble matter, chemical analysis, determination of content, fluorides, chlorides, nitrites, orthophosphates, bromides, nitrates, sulphates, high performance liquid chromatography

English version

Water quality —
Determination of dissolved fluoride, chloride, nitrite,
orthophosphate, bromide, nitrate and sulfate ions, using
liquid chromatography of ions — Part 1: Method for water
with low contamination

(ISO 10304-1:1992)

Qualité de l'eau — Dosage des ions fluorure,
chlorure, nitrite, orthophosphate, bromure,
nitrate et sulfate dissous, par chromatographie
des ions en phase liquide — Partie 1: Méthode
applicable pour les eaux faiblement
contaminées
(ISO 10304-1:1992)

Wasserbeschaffenheit — Bestimmung der
gelösten Anionen Fluorid, Chlorid, Nitrit,
Orthophosphat, Bromid, Nitrat und Sulfat
mittels Ionenchromatographie —
Teil 1: Verfahren für gering belastete Wässer
(ISO 10304-1:1992)

This European Standard was approved by CEN on 1994-11-03. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been taken over by the Technical Committee CEN/TC 230, Water analysis, from the work of ISO/TC 147, Water quality, of the International Organization for Standardization (ISO).

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 1995, and conflicting national standards shall be withdrawn at the latest by September 1995.

According to the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, United Kingdom.

NOTE Normative references to international publications are listed in Annex ZA (normative).
